- Imported leads into CRM for data gathering.

Projects

Event Management System

Built an academic project web application using front-end technologies to handle event registrations, venue booking, catering arrangements, vehicle scheduling, and music reservations.

Stock Exchange Analysis

Built an interactive Tableau NSE dashboard analyzing 50 NSE stocks using a multi-company dataset, tracking gainers/losers, volume trends, 52-week volatility, and price movement patterns.

Zeroday Hackathon

Participated as team in the Zeroday Hackathon at SIES College of Arts, Science and Commerce, Sion, working under timed conditions to ideate and prototype solutions to real-world problem statements.

E-commerce Data Analysis

Built an interactive Power BI dashboard analyzing 1,500+ e-commerce transactions, tracking revenue, profit & order trends across states, categories, sub-categories, and payment modes.

Certifications

Data Science and Analytics — HP Life Certified

Data Analytics — Deloitte Certified

Data Visualization — TATA Forage Certified

AI Skills Passport — MICROSOFT and EY Certified
